

Doseren is ons beroep, regelmaat is onze prestatie

Member of RG Distribution Group, the company Gentec Benelux is a solutions provider addressing problems related to precision assembly, adhesives, encapsulants, coatings, mixing, UV curing and UV light measurement for a wide range of industries. With over 30 years of experience, Gentec is supplying quality equipment and materials to an ever growing number of industrial clients in Belgium, The Netherlands and Luxembourg.

THE LARGEST RANGE OF ADHESIVES

Gentec offers a wide range of adhesives, silicones, greases and sealants for a large scale of applications. Due to its high expert quality, Gentec has been selected by Epoxy Technology to become the only Epoxy distributor in Benelux. You will also find the following brands: Cyberbond, Paleobond, Novagard, Norland...

MIX AND DEGAS YOUR PRODUCTS

Endowed by a unique technology combining rotary and centrifuge forces, Thinky mixers are designed to create a uniform and homogeneous mix. In the same way that Earth revolves around the Sun, the container moves in revolution around a central axis and turns around itself at 45°.

ADOPT THE RIGHT DOSING

Aware that dispensing is found among all industries during manufacturing process, Gentec put at your disposal its expertise of dispensing and dosing fluids in a precise and repeatable way. Gentec allows you to choose between two dispensing technologies: time pressure or volumetric. We also offer you the only patented dispensing system and the most accurate on the market.

AUTOMATION OF YOUR DISPENSES

Those robots are perfectly designed to be integrated on a production line, and associated to appropriate application systems, and enable to make several types of applications:

THE POLYMERIZATION OF YOUR UV ADHESIVES

Omniglow products offer the possibility to work via punctual sources or surfaces. With surface sources, it is possible to cure a large surface in a very short time. Punctual sources, on the other hand, allow for more precision and thoroughness to cure small and very small areas.

CONSUMABLES

Besides its dispensing solutions, Gentec offers you a wide range of consumables adapted to your equipment. Composed of syringes, pistons, needles, caps, and syringes adapters; all our consumables are certified silicon-free and are customizable on request.
