

MCI is a diversified innovative actuator supplier providing smart solutions for the automotive industry. We are the global market leader in **side-view mirror actuators** and we provide customers with new actuation solutions for **active aerodynamics** and **digital vision systems / camera monitor systems**.

MCI is a wholly-owned subsidiary of Flex, Sketch-to-Scale® solutions provider that designs and builds intelligent products for a smarter, more connected world.

MCI invented the electric glass actuator and in 1972 the first electric glass actuator went into mass production for the BMW E12.

Our products can be found in your daily life as MCI supplies more than 80 million actuators per year. With approximately 1200 employees we are the supplier to all of the top 10 global OEM platforms.

MCI is also a key development partner to premium OEMs for product innovations such as unique features in power-folding actuators well protected through global patents and production / process know-how.

Product Leadership

We are driven by product leadership and operational excellence and we translate the voice of the customer into market leading products. Our engineering teams are recognized in the industry for continuously delivering trendsetting innovations from Sketch-to-Scale®.

MCI is ambitious and forward looking, our engineering and operational excellence culture is part of our DNA. MCI's design capabilities combined with global IP ownership and our well defined innovation roadmaps makes MCI a preferred industry development partner.

Key facts

- Global no. 1 manufacturer of glass and power-fold actuators
- Approximately 1200 employees
- 40 R&D engineers
- Over 250 years of engineering experience
- 27 products and derivatives since 2001
- Over 100 patents filed since 1997
- Global supplier to all top-10 global OEMs
- Global supplier to 40 of the top-50 platforms
- Producing more than 80 million actuators per year
