

## ALTRAN

### About Altran

Altran is the world leader in engineering and R&D services. Altran offers its clients a unique value proposition to meet their transformation and innovation challenges.

Altran supports its clients, from concept through industrialization, to develop the products and services of tomorrow and has been working for more than 35 years with major players in many sectors: Automotive, Aeronautics, Space, Defense & Naval, Rail, Infrastructure & Transport, Energy, Industrial & Consumer, Life Sciences, Communications, Semiconductor & Electronics, Software & Internet, Finance & Public Sector. Altran has more than 50,000 employees operating in over 30 countries.

Altran is an integral part of Capgemini, a global leader in consulting, digital transformation, technology and engineering services. With 270,000 team members in almost 50 countries, the Group reported 2019 combined revenues of €17billion.

### Altran in the Netherlands

With about 1000 innovation makers, Altran is the leading specialist in Engineering and R&D in the Netherlands. We assist key players in several industries as a partner in innovative technology to meet their evolving market challenges.

We are located in Utrecht, Eindhoven, Helmond, Hengelo, Zwolle, and Leek where we host experienced project organizations and develop powerful solutions.

In Helmond, Altran offers unique Automotive facilities for engineering, testing and prototyping up to production of small series. Key expertise areas are autonomous vehicle development, e-mobility, durability testing and superyacht engineering.

### The best innovation

Rising to the challenge of transformation requires a deliberate approach to innovation and focusing key resources on core activities. **We help clients accelerate and scale their core capabilities**, with design, cutting-edge technological expertise and innovative business models.

### Our next core portfolio at a glance

The Altran Next Core portfolio brings together the rarest and most highly skilled experts to identify and seize business transformation opportunities for our clients.

- **Design & Innovation**  
Advancing the human experience through design
