

CUTTING EDGE MACHINE VISION TECHNOLOGY

Competence is what counts - and what makes a company successful. With more than 450 dedicated employees and over 30 years of experience, **STEMMER IMAGING** commands first place among European providers of imaging technology

COMBINING EXPERTISE WITH PASSION

STEMMER IMAGING is a leading international machine vision technology provider. With staff located across Europe, Latin America and Asia, we provide state-of-the-art machine vision solutions, extensive knowledge and outstanding customer service.

VISION.RIGHT.NOW. symbolises our mission to make machine vision easy and accessible, empowering customers to deliver world-class solutions.

PROVIDING A CLEAR COMPETITIVE ADVANTAGE

Our customers value us as a trusted advisor, positioned to deliver tailored solutions. These include components that we can pre-configure, sub-systems designed to reduce time and effort when integrating vertical applications, and customer-specific solutions delivering a competitive advantage to predominantly OEMs – all powered by our renowned knowledge and leading software tools including our own “Common Vision Blox”.

CLOSING THE GAP BETWEEN HARDWARE AND APPLICATION - COMMON VISION BLOX -

- Powerful in-house development
