Innovation of tomorrow, inspiration for today

Precision Solutions since 1990

At Ter Hoek Precision Solutions, we've been solving engineering precision problems since 1990. Specializing in EDM and a range of complementary processing techniques like ultra precise CNC-Milling and PECM.

We manufacture parts with intricate geometric shapes and demanding cleanliness standards, and take pride in achieving high tolerances up to 1 micron and low surface roughness of 0.08 Ra.

Choosing Ter Hoek means gaining a partner who can turn your complex precision challenges into reliable solutions. Whether you're in the semiconductor, medical, aviation, or aerospace industry, our experts are ready to provide components that meet your exacting standards, ensuring your products perform flawlessly.

Based in the Netherlands, we offer our international customers not just manufacturing, but a comprehensive partnership. Our engineers assist you from the design phase with manufacturing expertise to delivering both prototypes and large series with unmatched accuracy. Our diverse techniques, including Wire-EDM, micro-wire EDM, die sinking, micro EDM milling, ultra-precise CNC milling, and Precision Electro Chemical Machining (PECM), are tailored, mixed and matched, to meet your specific needs.

Innovative and organized

Innovation is at our core. At your service are craftsmen who think outside the box and are not afraid to explore new manufacturing possibilities. Our advanced machinery and climate-controlled production facility guarantee that each piece, regardless of its complexity, is crafted to the highest standards.

AS 9100

With over 30 years of expertise, Ter Hoek is not just a manufacturer but your knowledge partner. Our Aerospace grade AS9100 certification reflects our commitment to quality and reliability, providing you with the confidence that every component we deliver will meet the highest industry standards.

Craftmanship and expertise

By partnering with Ter Hoek, you benefit from our proven craftsmanship and relentless pursuit of improvement. We're here to support your engineering needs, troubleshoot challenges, and continuously develop advanced solutions to keep you ahead of the curve. We share our knowledge through webinars and masterclasses with engineers worldwide. Together we advance!

Let's talk Precision Manufacturing

Let's talk Precision Manufacturing and see how we can transform your precision problems into innovative solutions.

For more information, please visit www.terhoek.com or contact our specialists. Reach us during office hours by phone at +31(0)548 – 54 08 07 or via sales@terhoek.com.

We look forward to connecting with you.
