TSG Group (Total Support Group) is a development & engineering company, that designs, develops and realizes new products, machines, mechatronic equipment, software and web applications for national and international companies.

The headquarter is located in Brainport region Eindhoven, with subsidiary at Brightlands Chemelot Campus in Geleen, the Netherlands.

We serve customers in different markets; Hight Tech Systems & Materials, Life Science & Health, Agri & Food, Mobility, Consumer, Lighting and Sport & Leisure. For example, we have expertise in areas like custom 3D print technology, Circular developments and IoT/M2M solutions for products, machines and digitalization of industrial processes.

Feel free to contact us to share your technical challenges with us!
