

UCM - ULTRASONIC CLEANING MACHINES

UCM STANDS FOR:

- more than 25 years of accumulated know-how and experience in industrial precision surface cleaning
- Swiss precision engineering and solutions to the highest cleanliness standards
- a considerable reference list of renowned client companies spanning all important fields of application and industry types

UCM AG is a 100 % subsidiary of the German SBS Ecoclean Group, a global leader in industrial cleaning technology. With the integration of UCM, Ecoclean is a full solution provider for all sorts of industrial cleaning applications, from pre-cleaning via intermediate cleaning to fine and ultra-fine cleaning requirements.

INNOVATIVE AND INDIVIDUAL

UCM is a manufacturer of multi-stage immersion-type ultrasonic cleaning lines. All equipment meets the highest standards of substrate cleanliness.

Our sophisticated modular design allows these systems to be cost efficient and individually adapted to any application and requirement.

HIGH PROCESS SAFETY AND EFFICIENCY

- Multistage cleaning and rinsing process
- Movement of goods in the cleaning / rinsing tanks
- Ultrasonic equipment: submersible transducer, rod transducer, multi-frequency
- Warm air-, vacuum-, infrared dryer
- Filtration equipment

- Automatic basket transport
- Easy programming
- Circulation for rinsing water, DI-water, ultra-fine rinsing water
- Automatic dosing device

TYPICAL APPLICATION AREAS

- **Fine mechanics** (e. g. mechanical parts, aircraft-, automobile-, watch-, jewelry industry, parts for the high purity industry)
- **Medical industry** (e. g. implants, surgical tools, cannula, etc.)
- **Precision optics** (e. g. lenses, mirror, prisms, masks)
- **Coating industry** (PVD-CVD-Processes) (e. g. carbide tools, automotive parts, fixtures)
